

## Participants in the coup against President Trump

**By Jorge Felix**  
**Editor of the weekly "El Veraz"**

Once upon a time, there was a country in which the President was democratically elected, in which there was real freedom of expression, because they knew that freedom cannot be half-hearted, you have it or you don't. A country in which the freedom to speak, write and associate was understood to be sacred. A country where there was foolproof justice.

That country definitively ceased to exist after November 3, 2020. It has been a degenerative process as it happens with life itself, American cinema and its Oscars are not what they were, music is not what it was and the United States is not. It is the country that once was, it is a worse country.

What happened from November 3 to now ... was the culmination of a Coup d'état with Fraud that took place since Trump took office in 2016.

It was activated in the summer with violent protests by ANTIFA and BLM that led to the murder of 47 people.

It was a plot by the Democratic Party, the FBI and the judicial system ... where the media and social networks served to censor those who were peacefully fighting against the Coup d'Etat.

For months, many conservative sites were banned from the main servers in the world without explanation, they did the same thing that Amazon did later to Parler.

The Weekly "El Veraz" was expelled from GoDaddy because according to them it was a very large site and affected other users ... they gave me 15 days to leave the server, I moved to another server in a single day, and nobody did noticed, we were never off the air.

Naturally I sent an email to GoDaddy CEO, the Indian communist Aman Bhutani with a single sentence: "Shoot GoDaddy for his dirty ass."

They couldn't silence me and far from that when I saw the media blackout against President Trump, I stopped the issue of Cuba and dedicated the Weekly exclusively to denouncing the Coup d'état.

In just 6 months before the coup that social networks were a part of, Facebook eliminated 2.19 billion accounts of conservative users in the world. Many of those accounts of people who tried to re-enter Facebook and were again deleted.

Incidentally, smart users should move from Facebook WhatsApp to Telegram. Facebook is reading what users write on WhatsApp, there is no privacy for you.

I am one of the users that Facebook expelled to "perpetuidad" at least 60 times.

As a test, I told my daughter that she is in another country on WhatsApp, I need you to create a user for me. She could never do it

This shows that Facebook reads everything you write on WhatsApp to use it against you..

Another violation that Facebook commits is that you try to enter your user and receive the message: There is suspicious activity on your account, we need a photo ID and verifiable address.

## **The corrupt FBI continued to accuse Trump knowing from the beginning that everything was a lie**

[justthenews.com](https://www.justthenews.com)

Believe me it is preferable to lose account. Now we can understand why Biden had 80 million illegal voters.

Of all the branches of government, the most historically corrupt in the United States is the Judiciary.

The judges are part of the Judicial Power and if the Judicial Power is corrupt ... it is difficult for the judges as part of the Judicial Power and of that corruption ... they have the real and honest will to listen to the thousands of evidence of the Massive electoral fraud of the Democrats who came forward. They just didn't want to see them ... because they were part of the fraud..

The best evidence of the corruption of the judiciary is that Trump did not win a single case and that, far from justifying the inexistence of Massive Democratic Fraud, confirms its existence.

The judges, prosecutors and lawyers who read me know that it is impossible that in a morally honest and clean judicial system ... one can lose all cases, lose and win almost in the same proportion ... if the judicial system is clean . The opposite only happens in deeply corrupt judicial systems..

When justice is not capable of defending the Constitution ... then Justice must be vertically purged ... when an organization like the FBI ... is part of the fraud and the Coup that took place against President Trump ... It is an organization that must be eliminated from its foundation as part of Democracy ... it must be replaced and cease to exist.

The Supreme Court of the United States for its part ... as it was demonstrated, had neither the courage nor the moral courage to take a single case of the Massive Election Fraud ... that leads us to the following conclusion ... that the Court Supreme of the United States only serves to marry homosexuals ... for nothing else.

It will be necessary to consider if it is necessary, to keep in the Supreme Court ... that stream of bums feeding for life at the expense of the public budget.

If it doesn't work when it needs to ... it should be phased out ... or at least reformed or eligible every 4 years. If you do not have the courage and moral courage to defend the Constitution, whoever falls ... must disappear as we know it

Until the inauguration of the President of Fraud, we expected that Trump, the winning President of this election, would go on the offensive ... he never did.

Since the summer, when the BLM and ANTIFA criminals looted businesses, the American people had been waiting for the President to do something, take the initiative, the offensive.

[justthenews.com](https://www.justthenews.com)

He knew that a coup was in the works and vainly believed that the cowardly justices of the Supreme Court of the United States would support him and that is why he did nothing.

To the disappointment of his 75 million voters, Trump was not able to fulfill the most elementary of his oaths ... to defend the country from his enemies, external or internal.

His faithful electorate shouted at him for martial law against the Coup d'état, he did not. He yelled at her to apply the foreign interference clause... he didn't.

President Trump was never at the height of President Abraham Lincoln, who waged war with weapons within his own country to save the nation from internal enemies who seek to destroy and bleed it to the detriment of the American people.

### **What would Abraham Lincoln have done?**

Being faithful to his oath, at his time he waged war with arms within his own country against internal enemies who wanted to destroy it, closed newspapers, imprisoned journalists who criticized him and wiped out the internal enemies of the nation. Without a doubt, he was the most courageous President in the history of the nation, who defended the Constitution at the cost of his own life, he was the savior of the nation.

- If Abraham Lincoln had been the 45th President of the American nation with the army, he would have closed the newspapers, television networks and social networks that were part of the massive electoral fraud and the coup d'état, he would have imprisoned each of their owners.
- If the military leadership had refused to carry out their orders, they would have been arrested and replaced by military personnel loyal to the Constitution and the President.
- He would have burned the FBI and the judiciary to the ground.
- He would have declared martial law in the States that were part of the massive electoral fraud, calling new elections with the supervision of the military, eliminating the vote by mail.
- It would have dismantled the Supreme Court by jurists who if they had had the moral height to fight against the Coup d'état

## Payment for treason and the coup

Abraham Lincoln as a true patriot would have given his life as he gave it in the civil war to save the nation. Today he would not have lost her, because he would have had the support of the vast majority of the American people.

Freedom has been hijacked in the American nation, democracy as well, by a small group that does not want to lose its privileges.

Biden was the most unpopular candidate in the nation's history. After becoming the President of Fraud, he is the most unpopular President and he has not yet started.

U.S. Senate Majority Leader Mitch McConnell and his wife Elaine Chao, U.S. transportation secretary, are among the people whose families Mr. Schweizer alleges were targeted by the Chinese government.

Trump had 75 million legal voters, Biden 40 million and the rest dead with the right to vote.

That he waits for the American people in these 4 years, because to see how a few who live from slave labor in blood markets, increase their wealth to the detriment of the American people. There we have Amazon, which sells low Chinese quality, there we see APPLE, which is manufactured in China, as well as Facebook, Google and Twitter.

Be aware, do what I did, delete your Amazon account forever, don't buy anything from APPLE, don't buy anything from China, do your personal boycott. Get your users out of Facebook and create it on MAGABOOK, quit twitter, install as little as you can from google, don't use Google Chrome, it's made to atone for it..

Facebook, Twitter and Google are conspired to commit crimes, they are the MININT of the Democrats.

They all conspired to destroy the President of the United States ... if that is what they do to the President of the United States, they will not do to the simplest of his citizens, they will not do to the American people.

They should be closed forever, do not give social networks the rope with which they can hang you. If you are going to drop users on those social networks, do so to destroy them.

We Cubans can now understand better why the misnamed Cuban revolution has been in existence for more than 60 years, most of the media are part of the communist ideology, for them Fidel Castro was a dictator son of a bitch, but he was Your Dictator Son of a bitch.

And there we see the sewer rats of Carlos Albertos Montaner and Andrés Oppenheimer who, for a payment on CNN, cut the throat of his own mother. Those who work in these media are pure cowards blackmailed for a salary.

**When the Supreme Court of the United States and the judiciary refused to take any of the cases related to the 2020 elections, these were the 147 Congressmen and Senators who had the moral and the responsibility to fulfill that role, concluding that yes there was the Massive Electoral Fraud of the Democratic Party. These are the indispensable Congressmen and Senators, the rest are not necessary**

The Massive Electoral Fraud of the Democratic Party  
... can't Stand a Round of Mathematical Evidence

The United States has 50 states.

Trump won at 25, Biden won at 16.

Those states are home to 2,974 counties.

Trump won 2,496, Biden only 477.

Trump won 84% of the United States, Biden "won" 16%.

Most of the media in the United States are the propaganda department of the Democratic Party, the FBI, its armed wing, and the Judiciary, the legal agency of that party.

**What can the Republican Party do?**

Purge, expel and replace from the Party the Senators and Congressmen traitors to the party and the American people, the Marco Rubios, the Mitt Romneys, the Mitch McConnells. etc, to all those who did not vote against the Massive electoral fraud in the States in dispute, no more

Senators and Democratic Congressmen disguised as Republicans.

You will never see a member of the Democratic Party voting on decisive issues with the Republican Party.

That is what we need in the Republican Party, not the curia of cowards and traitors out there today. Either the Republican Party is completely reformed, where the elected politicians think first of all of the Party and the People of North America, or a completely new one is created whose foundations are the MAGA.

The American nation is in crisis, the American people do not believe in its institutions, they do not believe in the discredited FBI, they do not believe in the CIA, they do not believe in the media and social networks, they do not believe in the Judiciary ... they do not believe in the Supreme Court, he does not believe in Congress, he does not believe in the Senate, he does not believe in the fraudulent electoral system that led a thief to the Presidency of the country.

Biden as President of the Fraud, everything he will do will be to the detriment of the American people

It takes a President Lincoln to wage war against the criminals who are in power today, they are the internal enemies of the American nation.
